WORK EXPERIENCE

Wonga Group Pty Ltd — London, UK

Software Engineer — Jul 2014 – Current

- On boarded complicated SOA systems involving Drupal, .NET, REST API and Angular
- Implemented continuous integration for green field project which was completely de-coupled from large legacy systems which is now a model for all future projects in the business
- Designed and built project architectures and then delegated implementation to contractors
- Consulted on off shore technical recruitment

The White Agency — Sydney CBD, NSW

Solutions Architect PHP — Nov 2013 – Mar 2014

- Proved ability to work at another agency with different people and processes before moving abroad
- Took over leadership of existing onshore and offshore PHP team
- Improved several development workflows within the business; mainly around GIT, continuous integration and deployment
- Established the solution design workflow which determined approved platforms for White's biggest client
- Project management and planning including estimates, milestones, budgets and client liaison
- Implemented tools which leveraged existing systems to improve visibility for trafficking, bug tracking and project dependencies
- Manage outsourced developers, performing QA on all work produced
- Working with clients such as Lion Beer & Wine (Budweiser, Tooheys New, XXXX, James Boags), Momentum Energy and Panasonic

-Continued from page 1-

IdeaWorks / VML Australia Sydney CBD, NSW
Technical Director Oct 2009 – Oct 2013

- Recruitment and leadership of the technical team (10 people) across PHP, Ruby, iOS, Android and .NET
- Produce functional and technical scope documents for the client and development team
- Project management and planning including estimates, milestones, budgets and client liaison
- Technical research and planning to steer the technical direction of the business
- Implemented business systems for trafficking, bug tracking, deployment, version control and scrum
- Consult, create and present pitch material for the purpose of new business
- Manage outsourced developers, performing QA on all work produced
- Scheduling work within the development team
- Working with clients such as ASICS, Optus, ASICS NZ, Coates Hire, Bausch & Lomb, Camera House, Dymocks, Just Cuts, Emirates, Revlon, Skins, Gatorade, Colgate, Dell, Rip Curl and Kellogg's

The Topia Project Chippendale, NSW
